BRINGING SPORTS SURFACING TECHNOLOGY TO INDIA

SYNCOTTS INTERNATIONAL

Created by people passionate about sports, Syncotts was founded in 1992 by Late Mr. Shyam Minotra, tennis professional having represented India in Wimbledon & Davis Cup and co-founded by Mr. Sanjay Minotra, a national level tennis player. From humble beginnings of being a synthetic tennis court construction company, Syncotts has evolved to become India's largest company to offer all sports surfacing needs under one roof. Headquartered in New Delhi, the Syncotts team is present across the country with offices in Mumbai and Bangalore.

Syncotts provides sports surfaces for all outdoor and indoor sports. The Company's services include construction, maintenance, reconditioning, resurfacing, repairing and consulting in several sports surfaces.

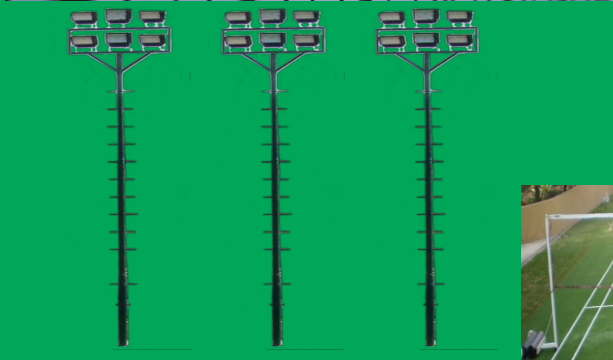

Syncotts offers various sport surfaces including:

- Synthetic Acrylic
- Artificial Turf
- Athletic Tracks
- Polyurethane
- PVC
- Wood Floor
- EPDM
- Hockey Fields
- Football Fields

Adding to this, the company also provides special surfaces for recreational walking, jogging and running tracks as well as IAAF approved running tracks for International competitions.

Syncotts has executed projects across all sectors including Government (SAI, State Governments, etc.), Real Estate Developers, Defense (Army, Navy, Air force), Educational Institutions, Corporates, Sports Associations and International projects in Pakistan, Nepal, Mauritius, Oman, Bhutan, Philippines, Saudi Arabia, Egypt & Bangladesh.

ACCESSORIES & AMENITIES

- Competition accessories (Umpire chairs, Scoreboards, etc.)
- Ball machines
- Electronic Scoreboards
- Stadium Seating
- Basketball Poles with Fiber Boards and dunking Rink
- Hockey Net and Net posts
- Football Posts and Net

RASHTRAPATI BHAVAN - NEW DELHI

CREDENTIALS

Our experience in the installation of more than 10000 indoor and outdoor sports surfaces makes us the leaders in our field in India. We have installed multiple surfaces in one location and hence have the necessary expertise to handle any project irrespective of magnitude.

With over two decades of experience in the sports infrastructure sector, Syncotts takes great pride in having successfully installed various surfaces at prestigious sites which include

- FIH Global Hockey Fields at Chandigarh Sec 42, Mohali, Faridkot, Bangalore, Lucknow etc
- FIFA 1 Star & 2 Star Pitches at Shillong, Imphal, Goa, Cochin, Kathmandu
- Rashtrapathi Bhavan, New Delhi, the residence of the Honorable President of India -three ultra-cushion tennis courts and one squash court
- World Athletics certified tracks at NIS - Patiala, Nehru Stadium - Chennai, Sports College - Jalandhar, etc.

What's more, some of the leading tournaments like ATP Tour, Jr.Hockey World Cup, ITF, National Games, Hockey India League, Pakistan Nationals, SAF and Lusofonia Games have been played on the Synthetic surfaces constructed by Syncotts!

SYNTHETIC ACRYLIC SPORTS SURFACES - An ITF Classified Surface

Syncotts Offers you two options :

1. Synthetic Acrylic - An acrylic system which is installed over Asphalt base.
2. Cast in situ SBR + Flex color

SYNTHETIC ACRYLIC SURFACE

Syncotts International offers world renowned Synthetic Acrylic Sports Surface. Our experience in the installation of over 10000 indoor and outdoor synthetic Acrylic sports surfaces makes us the leader in our field in India. Our sports surfaces are designed to meet the varied and demanding requirements of sports that are played at both professional and amateur levels. Using the best quality, standards of excellence are maintained throughout the installation process. The 100% acrylic color coatings are designed for application over asphalt or concrete sports surfaces. Ultimate playability. Proven durability, vivid color Variety - the result is a sport surface system that is specifically engineered for lasting beauty and performance. From front court to back, it's a combination that runs any match into an experience, and the reason why we're always straight-set winners over the competition.

Advantages of Our Synthetic Acrylic Surface

- Can withstand weather variation (freezing climates to extreme heat) without any problems and without loss of adhesion or color
- Higher quality performance during application
- Greater adhesion to the base ensuring a longer life hence ensuring a longer product life cycle.
- Greater cushioning factors and a cushion that retains its flexibility over a longer period of time
- Outstanding toughness and flexibility
- Virtually maintenance free

Sports Application

Synthetic Acrylic Surfaces can be used for a variety of sport such as:

- Tennis
- Basketball
- Volleyball
- Badminton
- Walking Tracks
- Multi Purpose Courts
- Handball
- Skating

WORLD SQUASH

ACCREDITED PRODUCT 2022

Syncotts Synthetic Squash Court Hard Plaster
Syncotts Glass Back Wall
Syncotts Wall Panel System (Professional Accreditation)

SQUASH COURTS

Syncotts International supplies and installs World Squash Federation (W.S.F.) approved and certified squash courts. These include world-class squash court back walls in both two & four panel backwall systems, wall panel system, hard plaster treatment for walls, squash court wooden floor, squash court lighting, squash court also ceiling and sound boards.

Panel System (W S F Approved and certified)

Syncotts offers state of the art wall panel system in lieu of hard plaster system. The panel system consists of high density board, fixed on wooden / aluminium sections which are fixed on the front and side walls of the court. The gap between the wall is filled with dry silica sand. The panel walls are finished with laminated surface.

Syncotts also offers you free standing panel walls for your squash courts

Hard Plaster Treatment (W S F Approved and certified)

This consists of 12mm thick, fibre reinforced, cement based and resin modified system. It is designed to withstand the impact of the squash ball.

Wooden Floor (W S F Approved and certified)

We supply maple, rubber, beech and teak sports floor. We recommend the maple floor as maple is approved for tournament play. It is one of the hardest of hard wood and is ideal for squash court play. Our floors are laid over wooden sleepers, plywood and cushion rubber pads. They are a tongue and groove system and are finished with PU sealers.

Rear Glass Wall (W S F Approved and certified)

We provide a 2 or 4 panel rear glass wall which has 2 or 4 panels respectively with fins and a door. We supply glass walls for singles and doubles squash, included with the glass walls, fitting and the bolts that are embedded for the glass fins.

We also provide 3 & 4 sided glass walls.

We can also supply the false ceiling squash court lighting and sound boards for the squash courts.

INDOOR SPORTS

Syncotts International offers Indoor sports flooring that are internationally approved by various sports federation including Badminton World Federation (BWF), FIBA (Basketball Federation), IHF (Handball), FIVB (Volleyball). Syncotts International offers fore types of indoor surfaces.

PVC Sports Floor

PVC Sports flooring enhance the athlete's performance by ensuring high shock absorption, impact resistance and sliding properties. They are available in highly authentic natural wood finishes and in a wide range of solid color. These sport surfaces are much superior to conventional wooden sports flooring since moisture, dampness and termites do not affect it and hence require very low maintenance. It is available in different thickness ranging from 3.5mm to 14mm.

Rubber Floor

100% vulcanized rubber for indoor sports. Rubber is environmental friendly product and provides comfortable and shock absorbent surface. The surface provides excellent traction which is essential for sports.

Polyurethane surfaces

These surfaces are made up of Polyurethane with the base material being S.B.R. rubber and then Polyurethane on top. The surface is extremely hardwearing having high tear and tensile strength. It comes in different thickness as per the sport to be played.

Wooden Floor

Syncotts International supplies Maple wood sports flooring. We recommend the maple floor as maple is approved for tournament play. It is one of the hardest of hard woods and is ideal for basketBall, Badminton and Squash court play. Our floors are laid over wooden sleepers and cushion rubber pads. They are a tongue and groove system.

Maple wood is designed to withstand heavy wear and tear especially in games like Basketball, Squash, Volleyball and Badminton.

OUTDOOR SPORTS, POLY-URETHANE (PU) AND KIDS PLAY AREA

Syncotts International offers surfaces like Poly-Urethane (PU) with SBR (insitu/prefabricated rolls) and EPDM flooring.

SBR is a granulized form of synthetic rubber. It is a long lasting standard quality recycled rubber surface which is coated on site. It is an excellent product in most applications and provides a cushioned option for most concrete surfaces.

Poly-urethane Sport Surfaces:

Designed for indoor/outdoor use as a non-porous system, the specially formulated product creates a high performance, seamless surfaces, ideal for all sport surfaces. When applied on top of a granular rubber substance, the elastic PU surface floor Coating provides a premium resilient surface for the utmost in player comfort, safety and performance. It is very durable and has a very long life, it is available in various thickness from 4mm to 14mm.

EPDM SURFACE

We offer you EPDM surface for outdoor kids play area and for jogging / running .

EPDM Surface consists of two parts (SBR + EPDM)

Base Surface consists of rubber granules mixed with high quality binder and installed on a proper sub base binder and layed down on the cement surface .

Top EPDM Layer consists of coloured EPDM granules mixed with high class binder and laid down on the top of the rubber surface.

The surface is highly cushioned and soft surface and is optimal for kid's play area.

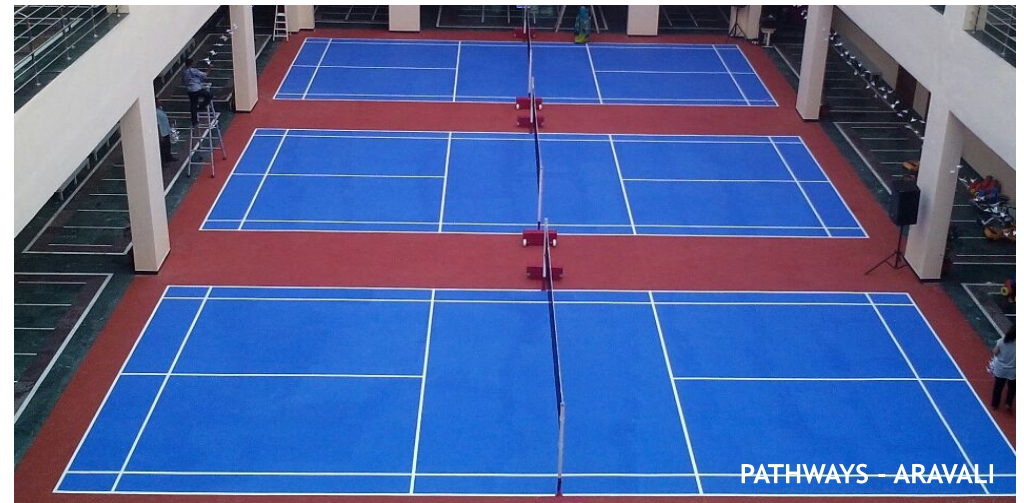

EPDM is ideal for outdoor sports application because of its outstanding heat, ozone and weather resistance. It also has excellent color stability and dielectric qualities.

ARTIFICIAL GRASS

Synthetic Grass (artificial turf) is being used for a wide variety of sporting and recreational purposes. It is very user friendly, comfortable, low maintenance and a cushioned system. Synthetic grass can be laid over concrete or asphalt.

Advantages of Artificial Grass

- Playable throughout the year
- Looks and feels like natural grass-retains color, no bare patches
- Extremely durable even with intensive usage
- Unique fibre structure making it UV-resistant and hardwearing
- No extra risk of injury-cushioned system, makes playing enjoyable.
- Optimal shock absorption
- Easy to maintain
- Environment friendly-made from materials that are recyclable

Sports Application

Artificial grass as a surface can be used for a variety of sports such as:

- Soccer
- Hockey
- Football
- Tennis
- Basketball
- Cricket
- Volleyball
- Badminton
- Multi-purpose use
- Recreational

ARTIFICIAL TURF FOR HOCKEY FIELDS

Syncotts is proud to announce its inclusion in the FIH Quality Programme for Hockey Turf and recognition as a FIH Certified Field Builder. FIH Certified Field Builder is an elite program where companies that specialize in building hockey fields, have proven ability to construct fields to the standards required for hockey, have appropriate in-house civil engineering expertise for the design and construction of hockey fields, operate quality management systems to ensure consistency in their work and provide comprehensive maintenance advice to their customers are recognised. A FIH Approved Product is tested for over twenty different properties, only hockey turf products that fully satisfy the requirements of the FIH Quality Programme for Hockey Turf are awarded this prestigious designation. The programme recognises three categories of products: Global, National and Multi-Sport.

Only those contractors / builders who fulfill strictly FIH norms qualify for this and only a handful of builders across the world become FIH CERTIFIED FIELD BUILDERS. It is a testimony to our unrelenting quest for installation excellence. Syncotts has in house teams trained in the latest installation techniques and all machinery (Paver machine, tools, mixer machine) used for a top class hockey installation.

We provide FIH approved turf for hockey as below

- (a) Global Elite
